

Johanna Collins is a member of the Corporation of Advanced Hypnotherapists.

The Corporation is active in representing all its members on a national level, particularly through the Institute of Complementary Medicine, and The U.K. Confederation of Hypnotherapy Organisations.

The Corporation only accepts therapists who have successfully completed their advanced training with *The Atkinson-Ball College of Hypnotherapy and HypnoHealing*. This is the most advanced training available, and each member is known to the Corporation personally.

### Hypnotherapy could help with the following:

- |                          |                       |
|--------------------------|-----------------------|
| Accident proneness       | Learning difficulties |
| Addictions               | Marital problems      |
| Agoraphobia              | M.E.                  |
| Alcoholism               | Memory                |
| Allergies                | Migraine              |
| Amnesia                  | Nail biting           |
| Anorexia                 | Nervous symptoms      |
| Arthritis                | Neurosis              |
| Asthma                   | Nightmares            |
| Bed-Wetting              | Over-eating           |
| Blushing                 | Panic attacks         |
| Childbirth               | Phobias               |
| Claustrophobia           | Premature ejaculation |
| Compulsions              | Psoriasis             |
| Confidence               | Public speaking       |
| Depression               | Self-consciousness    |
| Exam nerves              | Sexual problems       |
| Failure syndrome         | Shyness               |
| Fears                    | Smoking               |
| Frustration              | Sport performance     |
| Gambling                 | Stage fright          |
| Guilt                    | Stammering            |
| Hayfever                 | Stress                |
| Headaches                | Tension               |
| High blood pressure      | Torticollis           |
| Hysterical paralysis     | Twitching             |
| Impotence                | Ulcers                |
| Indecisiveness           | Warts                 |
| Insomnia                 | Weight                |
| Irritable bowel syndrome |                       |

(This list is far from being exhaustive)
